Subject: Re: question regarding Jefferson IA facility

Don, thanks for your inquiry.

I've had no inquiries about the site from any brownfield/redevelopment angle.

I know that this all started back in 2011 or so when a release was found associated with Electrolux's direct activities - some kind of refinance/pending sale Phase II was done and contaminants/release discovered, and it was reported to IDNR..

IDNR provided this to EPA for review and lead agency, as it was an active RCRA facility at time of release.

I see in our records that our last document is a May 2013 supplemental site assessment that Electrolux provided to EPA, but not other activity or inquiries up here.

If anything further I can assist with, please let me know.

Sincerely,

-Mel – have you had any inquiries from the former Electrolux facility in Jefferson? They are coming in Wednesday for a meeting to discuss next steps. Location is 601 E. Central Ave.

Thanks,
